

# A BLUEPRINT FOR THE BAY AREA'S FUTURE

## What is Plan Bay Area 2050?

Plan Bay Area 2050 is the long-range plan now being developed by the Metropolitan Transportation Commission and the Association of Bay Area Governments to guide the growth of our nine-county region for the next generation. Scheduled for completion in 2021, the plan integrates strategies for transportation, housing, the environment and the economy.

## What requirements must Plan Bay Area 2050 meet?

The plan must work to advance the Vision and Guiding Principles adopted by MTC and ABAG in 2019 — to ensure that the Bay Area in 2050 is more affordable, connected, diverse, healthy and vibrant for all. Furthermore, among many statutory requirements, the plan must meet or exceed a 19 percent per capita greenhouse gas (GHG) emissions reduction target for light-duty vehicles by 2035, while planning for sufficient housing at all income levels.

## What is the Final Blueprint?

The Final Blueprint integrates 35 bold, equitable and resilient strategies—building upon the predecessor Horizon Initiative—to tackle the region's transportation, housing, economic and environmental challenges.

## What is a “strategy”?

A strategy is either a public policy or set of investments that can be implemented in the Bay Area over the next 30 years. A strategy is not a near-term action, a mandate for a jurisdiction or agency, or a legislative proposal. In addition, because Plan Bay Area 2050 must be fiscally constrained, not every strategy can be integrated into the plan given finite available revenues.

## Who implements these strategies?

Strategies in Plan Bay Area 2050 can be implemented at the local, regional, or state levels. Specific implementation actions and the role for MTC and ABAG are being identified through a collaborative Implementation Plan process between fall 2020 and summer 2021.
