Join our Team!

Van Meter Williams Pollack is an award-winning multi-disciplinary architecture and urban design firm with offices in San Francisco, Denver, and Minneapolis. We are an open and progressive office with a variety of challenging projects. Van Meter Williams Pollack's architectural work focuses on community development including mixed-use, multi-family, and affordable housing projects. Beginning with a focus in sustainable practices and emphasizing urban infill, our work in community development and architecture, including transit-oriented design, has been recognized nationally. We are seeking dynamic individuals with well-rounded experience, who are committed to design and the environment. Explore our website for a description of our [current work](#) and [philosophy](#).

VMWP's architectural work focuses on affordable housing, community development and sustainability. Our urban design work includes transit-oriented development, master planning, specific plans, and design guidelines. Each of our projects includes an active community process where we work together with local stakeholders in workshops, charrettes, and meetings to prioritize goals and create a future vision of their place.

"You can design and create, and build the most wonderful place in the world. But it takes people to make the dream a reality."

Walt Disney

Van Meter Williams Pollack is an equal opportunity employer. Salary is dependent on experience. VMWP strongly recommends that employees are vaccinated against COVID-19. Newly-hired employees are required to provide proof of vaccination before starting work in the office.

PROJECT ARCHITECT | DENVER, CO

Van Meter Williams Pollack is looking for a dynamic individual with well-rounded experience and a commitment to design and the environment to join its Denver office as a Project Architect.

The Project Architect will supervise projects through conceptual design, the entitlement and permitting process to production of contract documents, and construction. Candidates must work well within a team and individually in an interactive studio environment.

Multifamily housing and mixed-use experience is desired, with two years in similar capacity. Strong graphic skills and competency in the following software programs are encouraged: Sketch Up, Photoshop, Illustrator, InDesign. Excellent CAD/BIM production skills are required, and Revit experience is a strong preference.

The project architect position requires:

- an architectural degree
- a Colorado Architectural License
- 7-10 years of professional architectural experience

Van Meter Williams Pollack has an open, diverse work environment, located in downtown Denver right across from Union Station.

To apply, e-mail cover letter, resume, and portfolio to:

Please, no telephone inquiries.

JOB CAPTAIN | DENVER, CO

Van Meter Williams Pollack is looking for a dynamic individual with well-rounded experience and a commitment to design and the environment to join its Denver office as a Job Captain.

We are seeking a Job Captain with strong design skills and the ability to lead production teams from design through construction documents. The position requires working closely with the Project Architect to assemble design and construction document packages and coordinating documents with the consultant team.

Strong graphic skills and competency in the following software programs are encouraged: Sketch Up, Photoshop, Illustrator, InDesign. Excellent CAD/BIM production skills are required, and Revit experience is a strong preference.

The Job Captain position requires:

- an architectural degree

- 5-7 years of professional architectural experience on the licensure track
